

Augmented Reality Stories

Ready to discover new cultures, relive past events, and immerse yourself in timeless stories like never before? Augmented Reality (AR) is an interactive tool that provides a unique way to connect with the world around us.

Discover Cultures

With AR, we can travel back in time by bringing past events to life.

AR gives an opportunity to travel the world and discover new cultures and art sustainably, without crowds of tourists, and at any time that suits you.

Discover a New Reading Experience

AR allows readers to immerse in their all-time favourite stories and appreciate the intricate details of each character and scene..

Live the Tale

By using AR technology, AR4Youth brings beloved fairy tales and myths to life, providing a unique opportunity for us to revisit and relive our childhood memories. The project team is designing and digitising stories from around the world, ensuring that these timeless tales can be enjoyed and shared with future generations.

Culture Preserved

Through preserving cultural heritage, the project brings forward a creative and new way of looking at the following stories that became the staple of our childhood

By using AR technology, AR4Youth is designing and digitising stories from around the world, ensuring that these timeless tales can be enjoyed and shared with future generations.

You can learn more about it on our project's [FB](#) and [website](#).

Co-funded by the Erasmus+ Programme of the European Union
